**SAN BRUNO COMMUNITY FOUNDATION  
AND YOUTUBE/GOOGLE.ORG  
PARTNER TO AWARD COMMUNITY GRANTS  
IN SAN BRUNO**

*With \$100,000 Grant from YouTube/Google.Org,  
SBCF Board of Directors Will Consider Grants Totaling \$300,000  
to 23 Organizations for Projects Benefiting the San Bruno Community*

**San Bruno, California, December 1, 2017** – At its meeting on December 6, 2017, the Board of Directors of The San Bruno Community Foundation will consider approving grant awards totaling \$300,000 to local community organizations for 23 projects that benefit the San Bruno community. In its second year of offering the Community Grants Fund, the Foundation is providing \$200,000 of its own funds for projects that will take place in 2018. The Foundation is also thrilled to announce that YouTube/Google.Org has contributed \$100,000 to the Community Grants Fund, increasing the dollar amount of grants to be awarded by 50 percent.

Through the Community Grants Fund, the Foundation is utilizing investment proceeds from a portion of the restitution funds resulting from the City of San Bruno's settlement with Pacific Gas & Electric Company following the 2010 gas pipeline explosion that devastated San Bruno's Crestmoor neighborhood to invest in local organizations that form the lifeblood of the San Bruno community.

This year, YouTube/Google.Org's generous contribution allows the program to fund nine more projects than it supported in its first cycle.

“For the second year in a row, we are delighted to support a wide range of community organizations doing important and meaningful work to benefit the people of San Bruno, such as Project Read’s literacy programs for low-income San Bruno parents and children, Peninsula Conflict Resolution Center’s health promotion efforts to combat diabetes in San Bruno’s Pacific Islander community, and Community Overcoming Relationship Abuse’s support services for victims of domestic violence,” said Foundation President Nancy Kraus. “We are so grateful to YouTube/Google.Org – true community partners in San Bruno – as their generosity enables the Foundation to offer an additional \$100,000 in grants to many worthy organizations that serve a diverse cross-section of the San Bruno community.”

The recommended grantees were selected from a competitive pool of grant applications that were received by the program’s September 27, 2017, application deadline. A review panel of volunteers, including community members and individuals with grantmaking and nonprofit experience, reviewed and evaluated the applications, ultimately recommending that the Board approve grants to the 23 projects. Most importantly in its evaluation, the panel weighed the benefits of the proposed projects to the San Bruno community. Other criteria the panel considered include each proposal’s alignment with one of the Foundation’s identified focus areas, project methodology and budget, the requested grant amount in relation to anticipated community benefit, and the applying organization’s track record, stability, and financial health. The recommended grant awards range in size from \$25,000 to \$1,500.

The Board will consider approving the following grant awards on December 6:

- \$4,000 to the American Association of University Women (AAUW) North Peninsula Chapter to provide funding for San Bruno middle school students to attend the Tech Trek science and math summer camp for girls held at Stanford University;

The San Bruno Community Foundation is the nonprofit organization created by the City of San Bruno to administer the \$70 million in restitution funds received from PG&E after the devastating 2010 gas pipeline explosion in San Bruno's Crestmoor neighborhood. The Foundation serves the San Bruno community by investing in projects, programs, services, and facilities that have significant and lasting benefits. Through making grants, leveraging partnerships, and taking advantage of other resources, the SBCF assists and enables the community to maximize shared investments and realize their subsequent enhancements and benefits.
